

FRI EVE, MAY 4 – EAA106 PROGRAM - EAA106 Hangars (LWM)

Learn about the Exeter UFO Festival

This event was the basis of the internationally famous book and research, "Incident at Exeter" by John Grant Fuller.

NOTE re date on above: *Our meeting to learn about this event is MAY 4*

SPEAKER: **Bill Smith, Past President, Exeter Kiwanis Club**

Mr. Smith will present information on the annual Exeter UFO Festival. The festival has been held in downtown Exeter, NH for the last eight years, drawing UFO enthusiasts from across the country. The festival is held in Exeter in part because of a famous 1965 incident where a UFO was seen flying around.

Come learn about this festival which is a major fundraiser for the Exeter Area Kiwanis Club. As with all of their fundraisers, 100% of the profits go to local children's charities, children's programs, and community programs.

Not only is the Exeter UFO Festival an educational experience for both believers and skeptics, it's a fun time for families and friends. There are activities for the kids and a lecture series featuring an esteemed panel of experts for the adults.
